ABOUT US

### Welcome to Stormsaver

We are a vibrant, growing business founded on innovation, quality, honesty & teamwork. Our vision for the future is “A water secure future through water reuse” and we want you to understand our vision and aspire to be part of making it a reality.

It is crucial to us that Stormsaver acts ethically, sustainably and morally responsible. You should uphold our core values of Making the Difference, Customer Experience, Exceptional Quality & Unrivalled Expertise. We want you to embrace our culture which embodies family values and trust. Follow the guidance of your leaders and trust in the processes set for you. Approach your work confidently and never be afraid to share your ideas or speak up if your personal values feel compromised.

Above all you should honour, respect and work tirelessly to meet our clients needs and build long-lasting, mutually profitable relationships. You should ensure we are providing flexible, honest and cutting edge solutions to our industry and strive to create new opportunities and nurture all business relationships.

### How will you personally make a difference?

Your responsibility as tank cleaning operative is to complete jobs on time, to the highest quality standards and to ensure all water reuse systems in our care operate efficiently to deliver optimum savings for the client. Your work will help to promote Stormsaver and its activities to potential and existing clients, creating new opportunities, strengthening relationships and kickstarting continued business growth.

Your activities will uphold our reputation with our clients and keep water reuse and its benefits, in the forefront of the sustainability agenda, and be crucial to our goal of water reuse becoming the “norm” in all buildings in the UK. If the systems work well, people will want more of them and the industry will grow. Your role is crucial to us achieving our vision.

You will work closely with all departments in the business to ensure we deliver excellence to our customers throughout the maintenance process and that you continuously improve your knowledge of our products and the industry. As part of trusting you with these responsibilities we expect you to be accountable for excellent and timely delivery of your work, to really take ownership of your particular area in the business and to take pride in everything you do.

### Working away from home

The majority of your time will be spent traveling and visiting client sites across the UK which will require you to stay away from home 4 nights a week. Once per month you will also spend time at the office re-stocking your vehicle and assisting colleagues in the workshop. You will normally travel in the company van alongside your team.

You will be given a schedule to follow each week. This may require longer hours than contracted in order to accommodate travel. You'll often need to think on your feet and come up with solutions to problems, whilst maintaining a strong attention to detail and sound judgement skills.

### Key Responsibilities - Tank Cleaning
